True Descriptions

We describe goods in this list in as brief and straightforward manner as possible, and guarantee every article as represented. If you do not find it so, you can return it immediately at our expense, excepting cut flowers. They being of such a perishable nature, it is necessary that our responsibility cease after we make delivery to express company in good condition and on time, although we shall always entertain any complaints that may come before us, and do all within our power to have matters adjusted satisfactory to all concerned.

Our Cut Flower Department. We Can Supply You to Advantage

This department is the mainstay of our business—ten years experience in the Chicago wholesale market, a like period in the retail line, and with daily consignments from **40 to 60 Growers**, we are in a position second to none to supply **All**

Grades of Cut Flowers to Advantage, and especially solicit orders from buyers who place regular orders.

Chicago Market Prices

In the absence of quotations from us you can always depend upon our rates being consistent with those of other reliable Chicago firms. Write, telegraph or telephone at the last moment if necessary.

SCENE IN OUR SUPPLY DEPARTMENT

We carry the Largest Stock of Supplies in the West.

To Growers of Cut Flowers

If you are a shipper of roses, carnations, chrysanthemums, violets, etc., we solicit correspondence or a personal call, believing it will be to your interest to negotiate with us.

Remittances for all sales on cut flowers made promptly each week.

Our Responsibility

We dislike to send goods C. O. D. and when shipment is desired in that manner at least 25 per cent of the amount should accompany order—we do not ship perishable plants or Cut Flowers C. O. D. unless specially requested.

Goods used or damaged after leaving our hands cannot be returned unless by special agreement. Goods bought outside or made to order will not be exchanged, if sent as originally ordered. When ordering goods, always take advantage of full freight rate. Should you order goods weighing, say 20 pounds, and freight rate to your destination is, say \$1.75 per 100 pounds, look over your stock carefully and you will undoubtedly find something else you are in need of and by ordering at same time you can have shipped with other goods up to 100 pounds without additional freight charges. This means quite a saving at end of the year.

We cannot assume responsibility for safe arrival when plants are shipped by freight. All perishable stock should be shipped by express.

Special Express Rates

Express companies now carry plants, when packed in closed boxes or baskets, at the "general special" rate, which means a reduction of 20 per cent from the regular merchandise rate.

To those who have favored us with their patronage in the past, we need but say that it will be our continued effort to justify a furtherance of their trade and the few that we have not had the pleasure of supplying we beg to assure them a trial order, will, we believe, obtain for us their future business. Soliciting your esteemed commands,

Yours very truly,

E. F. WINTERSON CO.

TO GROWERS OF CUT FLOWERS

An extensive shipping trade as well as a large local call places us in a position second to none to handle your crop or surplus stock.

We are always glad to supply information with regard to existing market conditions and shall be pleased to have you make a personal call. Write, telephone or telegraph.

IMPORTANT TO CUT-FLOWER SHIPPERS

All cut-flowers for market should be carefully packed and shipped to reach us as early in the morning as possible. Should you not have enough stock to make daily shipments, make shipments on certain days to suit your cut, and ship regular on those days. Mondays, Wednesdays and Saturdays are the best market days, Saturdays especially. We prefer daily consignments if possible. Always put plenty of foliage with Violets, Valley, etc. Never mix long and short stemmed roses together; always grade into first and second quality. In bunching Carnations, be careful to have every one a good flower, as one or two inferior blooms will oftentimes condemn the whole bunch and a lower price is the result. Bunch the poor Carnations separate; we can then sell them for what they are worth. Growers who can ship Sunday mornings, do so, as Sunday is becoming a good day for disposing of stock. Our store is open until noon Sundays. Always be sure to put consignment slip with every shipment; should you be out of consignment slips, addressing tags, etc., notify us and we will furnish same.

IMPORTED CYCAS LEAVES.

OR

PREPARED PALM LEAVES.

Every progressive florist uses them—knows their attractiveness and value, hence it is quite superfluous to go into details. We import them in immense quantities, and as to price and quality can meet any competition.

Ours are "imported prepared" Cycas, made by a special process, soft and pliable, nice wide leaves, like the natural growth.

We measure the leaf only (without the stem).

NOTE.—There are other so-called Prepared Cycas, merely cut and painted; they get brittle quickly, break and become useless. Do not be misguided.

"JACK ROSE" Brand

The Bone Meal That Produces Results

Our "Jack Rose" brand Pure Bone Meal is especially recommended to rose growers; however, of course, owing to its high quality it is also superior for use in connection with any plant life. This brand of Bone Meal is prepared for us under our own formula and is guaranteed absolutely pure, with none of the gluten or other valuable ingredients removed. We have for the past ten years supplied this brand to the trade, and the best evidence of the fact that it is "the

satisfactory kind" is proved by the many commendations we have had for it, and the further fact that growers who once use it invariably repeat their orders. We stake our reputation on the quality of "Jack Rose" brand Pure Bone Meal, and you will be making no experiment in trying it. (Samples mailed free.)

A most effective fertilizer and largely used by the best growers, both as a top dressing and in the manure tanks. We handle but one grade of this important fertilizer, and this is Pure Sheep Manure. No dirt, no weed seeds, nothing but what will give results. Sheep manure is a perfect fertilizer containing all the necessary plant foods which are lacking in most soils.

HARDWOOD ASHES.

The benefits to be derived from their use is due to the large amount of Potash they contain. Our ashes are from Hard Wood and not to be compared with soft pine ashes, which invariably contain properties extremely injurious to plant life. ACME HOSE COUPLERS.

No necessity to discard old couplers. Place one of these on every hydrant and faucet, also on the "nib" of each section of hose. Now place a No. 4 coupling in the old style socket coupling, one for each section of hose, then in one second you can connect or disconnect to hydrant or faucet or to one another any or all sections of hose.

Nos. 1 and 2 are used only on new hose when the old style couplings have been discarded throughout. In this case, however, it is necessary to fit every faucet and hydrant with a No. 3 Acme, the same as though No. 4 was to be used along with the old couplers.

They are inexpensive. If you have ten faucets, then you need ten No. 3's, which will cost you \$1.00. You have four sections of hose and need four No. 4's. They will cost 80c. For \$1.80 you fit your entire house with Acme Couplers, and they are indestructible.

It will never pull apart, the diameter has not been reduced, no wires to catch on everything, no pipe to rust and rot the hose, a sound, sensible joint good for all time, and when the hose is used up cut out the Coopers and they are good for the new hose when it gets leaky.

"NICO-FUME."

A Tobacco Paper for Fumigating.

Paper saturated with high strength Nicotine is undoubtedly the best and easiest possible method of fumigation. "Nico-Fume" is not only made of the strongest extract of Tobacco and evenly distributed on the paper, but it is put up in friction top tins so that it is not possible for the Nicotine to evaporate. This is of great importance, as it is well known that Nicotine so applied, if exposed, will soon lose its strength. Full directions with every package. Price:

FUNERAL DESIGNS MADE OF ARTIFICIAL FLOWERS AND LEAVES.

Many florists are under the impression that this class of goods will hurt their trade in natural flowers. Here they are entirely mistaken, as these goods will come in where natural flowers absolutely fail to answer the purpose. For instance, extremely hot or cold weather,

long distance shipment, etc. Our goods are always ready and practically everlasting.

Besides designs mentioned, we can make up any design which you find listed in our wire frame page, such as Gates Ajar, Rock of Ages, Standing Crosses,

Crescents, Sickles, etc.

Try a small sample assortment and be convinced that they will not only not injure your trade, but favor it, wherever shown, as they are made of strictly first-class material and absolutely life-like flowers and leaves.

WINTERSON'S CHIFFON

The most inexpensive and most beautiful decorative material on the market. Costs 1/4 as much as ribbon and can be used more effectively in many instances. Ours has that gorgeous lustre. Four and six inch widths, in white, green lavender and pink at 6 1/2 and 8 1/2 cents per yard, respectively. Pieces run 28 to 36 yards each. Send for Samples.

Remember in selling cut flowers the crowning beauty of the entire assembly is a contrasting ribbon tastefully tied. A ribbon of the proper shade gives to cut flowers a touch of richness impossible to obtain otherwise.

WE HAVE TESTIMONIALS BY THE HUNDRED.

One pint is sufficient for 300-foot house. The house should be closed tight while fumigating. Most economical way is to use ordinary engineer's oiling can with spout and handle,  having hole in spout equal to ordinary knitting needle. Run small stream on steam pipe (when full of steam) from one end of the house to the other, producing heavy fumigation. Rids you of the bugs completely for 3 to 6 weeks, according to the time of year.

Several houses can be fumigated at one time, one man to each house,

LAMP AND FUMIGATOR COMPLETE COSTS YOU 50c.

As a spray, use one ounce to ten or fifteen gallons of water. The spray is better with the addition of soap, one ounce to two gallons.
